

FOREST SOUL

Collection

FROM THE EARTH, TO THE SOUL: NATURALLY CRAFTED

MDC

MATERIAL DESIGN CENTER

The Conscious Choice

Material carries responsibility.

It shapes not only space, but the way we relate to the world around us.

Wood has always been valued for its warmth and authenticity.

This collection presents a conscious alternative — preserving that character without the need to take from nature.

Inspired by real wood, developed with precision,

each surface reflects a balance between natural aesthetics and mindful production.

Bringing together a range of wood-look series,

the collection presents a unified direction for contemporary spaces —

where design, function, and environmental awareness coexist with intention.

WOOD SERIES

Natural Calm.

Quiet Texture for Modern Living

Inspired by nature.
Designed for timeless spaces.

" Not every room is meant to be filled. "

MW122033C

MW122033C

"A slower way of living."

A warm and versatile wood-inspired surface that brings a sense of ease to contemporary living.

Its natural tone creates a gentle connection between indoor and outdoor spaces, offering a calm backdrop for everyday life.

MW122034C

" Simple, welcoming, and quietly captivating. "

As the last light of day slowly fades, the space begins to reveal its true character. Warm reflections settle gently across the surface, creating layers of shadow and depth that feel calm, refined, and quietly intriguing. Its understated tone brings a natural sense of comfort, allowing materials, light, and architecture to exist in perfect balance. Every element feels intentional, stripped back to only what truly matters.

It is a beauty that does not demand attention at first glance. Instead, it reveals itself gradually over time—like a meaningful conversation, a favorite record played softly in the background, or an evening you wish would linger a little longer.

*"...or an evening you wish would
linger a little longer."*

MC-Classic Miele Matt

"Sophistication you can see, warmth you can feel."

MC-Classic Honey Matt

Immerse yourself in the art of mindful living, where Zen minimalism gently embraces Scandinavian warmth. These light-toned tiles breathe an airy expansiveness into your space, gracefully inviting natural light to dance across the floor. Every step on this true-to-life wood texture serves as a gentle retreat from the bustling world outside. It is an invitation to slow down, ground yourself, and discover profound peace within a sanctuary built on beautiful simplicity.

MC-Classic Dove Matt

MC-Classic Brown Matt

Transform your personal space into a sanctuary of profound peace with the deep, grounding warmth of rich brown wood-patterned tiles. Perfectly capturing the essence of quiet luxury, the remarkably seamless surface creates a flawless, uninterrupted flow that visually expands the room. Bathed in soft ambient light, this exquisite floor becomes a comforting retreat, ready to softly embrace and restore you at the end of every day.

Craft your own cozy café-like retreat right at home. These warm wood-patterned tiles offer an effortlessly smooth, seamless surface without the distraction of grout lines, visually expanding your space with unbroken elegance. Bathed in soft, natural sunlight, this beautifully continuous floor perfectly embraces the minimalist lifestyle, creating an inviting and deeply relaxing corner for your everyday escape.

A deeper expression of calm.

MC-PECAN TORTORA brings gentle depth and understated texture into modern spaces, allowing light, material, and atmosphere to exist in quiet balance.

Deeper in tone, quieter in expression.

This darker interpretation brings weight, atmosphere, and subtle material contrast into modern interiors — creating spaces that feel composed, intimate, and timeless.
