MC UNIQUE

Color, Light and Surface

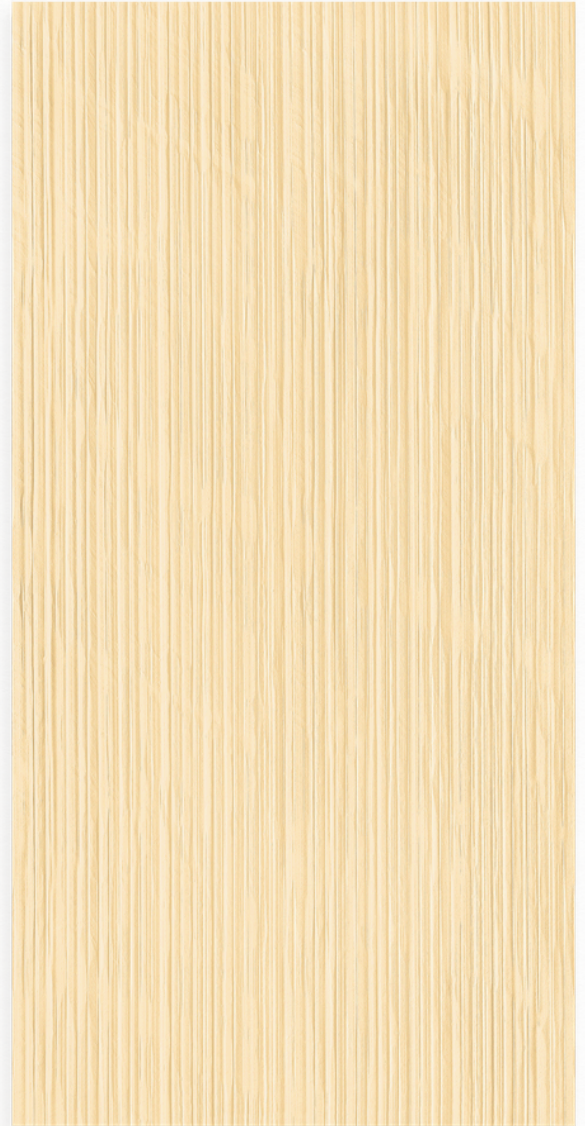

Color is no longer just a surface. Paint Fades. Form shifts. But true identity should endure.

MC UNIQUE collection introduces a permanent dimension of color to contemporary architecture. Through advanced Full Color Body technology, rich pastel pigments are embedded deep within the structural porcelain — not merely coated on top.

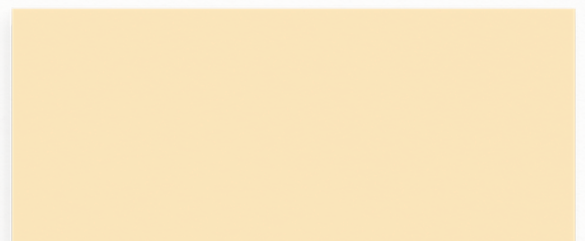

This is a conscious shift from temporary finishes to timeless permanence. Every surface balances pristine, vibrant color expression with the absolute strength of porcelain, shaping spaces that remain uncompromised by time.

MC - Amber

Amber reflects the essence of the golden age of light. This warm-toned tile provides a radiant backdrop for luxurious reception areas and residential lounges.

Designed to blend with soft lighting, the matte surface diffuses warmth, while the lenza texture adds rhythmic, flowing shadows, elevating the space into a warm and inviting architectural masterpiece.

MC-AQUA

Quiet flows the mind. Aqua is a serene blend of blue and green, inspired by calm coastal waters. It is the ideal choice for wellness centers and modern spas. Because the color is embedded through the entire porcelain body, the Aqua hue remains vibrant even in wet zones, offering a seamless, water-resistant canvas that paint could never sustain.

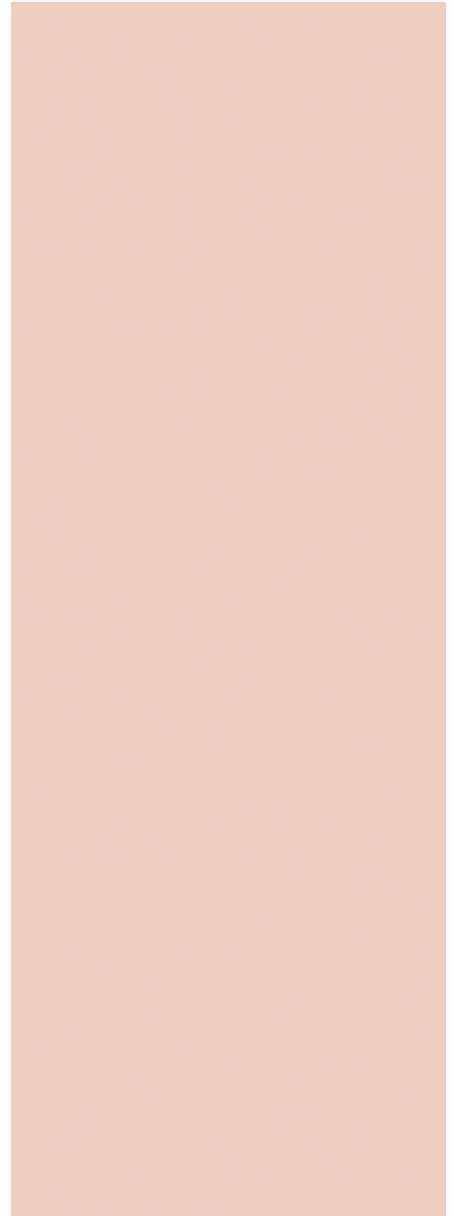

Smooth Color Series

MC-FRENCH

French peach brings a romantic yet sophisticated chic to modern interiors. This pastel coral hue acts as a soft, organic canvas for minimalist furniture and natural materials. Its versatility allows it to transition from floor to wall, creating a cohesive, "Total Look" environment that feels airy, inviting, and impeccably French.

MC – IRIS Individuality expressed through Iris. This muted lavender shade is a rarity in high-end porcelain. Designed for art galleries and designer boutiques, Iris offers a bold yet tranquil aesthetic.

The Lenza texture in this shade creates a sophisticated vertical rhythm, transforming plain walls into dynamic focal points of contemporary art.

Smooth Color Series

MC-RUBY

MC-RUBY explores a softer side of color — muted, calm, and quietly expressive.

Its subtle mauve undertone shifts gently with light, creating spaces that feel intimate, atmospheric, and deeply contemporary.

Smooth Color Series

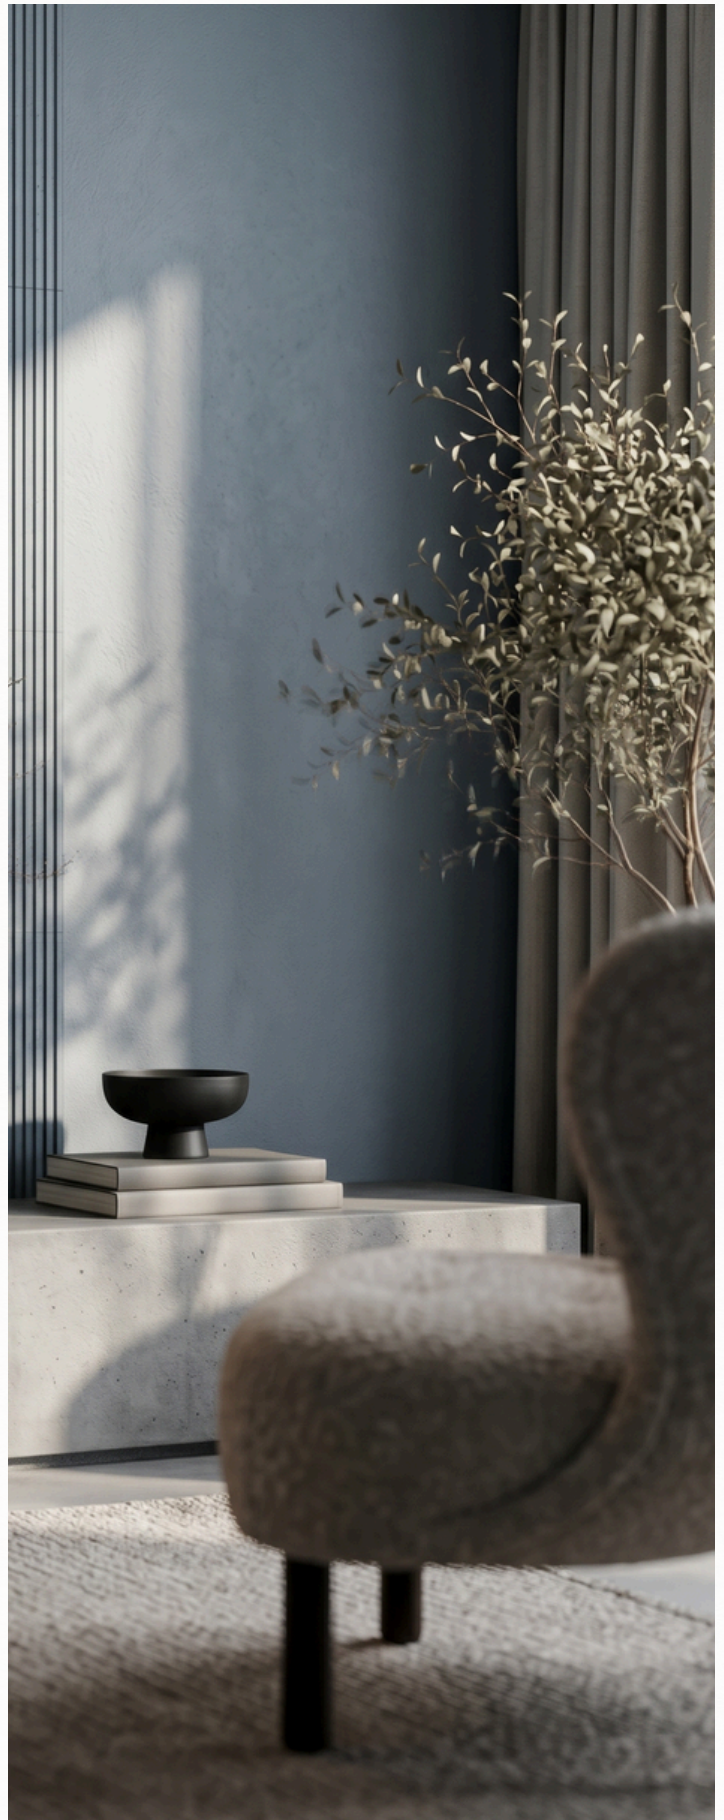

Softly muted with a quiet mauve undertone, RUBY brings warmth, depth, and emotional subtlety into contemporary spaces.

MC-SKY captures the quiet presence of light and space through a soft blue-grey tone that feels calm, muted, and atmospheric.

Its understated character allows natural light, shadow, and surrounding materials to become part of the composition, creating interiors that feel effortlessly contemporary and deeply serene.

Paired with LENZA, the surface gains a subtle sense of movement and texture. Fine vertical detailing gently reacts to changing light throughout the day, adding depth and softness without disrupting the calm visual balance of the space. The result is a refined architectural atmosphere that feels airy, tactile, and quietly expressive.

Smooth Color Series

MC-SPRING introduces a softer, grounded atmosphere through muted green tones and subtle material depth.

MC-WINE introduces a deeper emotional atmosphere through a muted wine-toned palette softened by dusty plum undertones.

The color shifts gently throughout the space, creating a quiet sense of intimacy, warmth, and architectural calm without overwhelming the surrounding materials.

Its understated richness allows light and shadow to become part of the composition, bringing depth and softness into contemporary interiors. Combined with carefully balanced proportions and minimal forms, WINE creates spaces that feel refined, cinematic, and emotionally grounded.

When paired with the LENZA surface, the atmosphere becomes even more tactile and immersive. Fine vertical detailing softly reacts to indirect light, producing subtle layers of shadow and texture that enhance the spatial experience without interrupting its visual stillness.

Designed for contemporary environments with a quieter expression of luxury, WINE offers a sophisticated material presence that feels timeless, artistic, and deeply atmospheric.

Smooth Color Series

Designed for contemporary spaces with a refined architectural mood, WINDSOR pairs effortlessly with natural materials, soft shadows, and clean compositions — bringing a subtle sense of balance and sophistication into the environment.

MC-WINDSOR introduces a muted blue-grey tone with a calm and understated presence.

The depth of the color shifts gently throughout the day, creating interiors that feel quiet, modern, and atmospheric.

MC-SUNSET introduces a warm and expressive atmosphere through softened terracotta tones balanced with a muted contemporary character. The color brings a gentle sense of warmth into the space, creating interiors that feel inviting, artistic, and quietly vibrant without becoming overwhelming. Its subtle depth reacts naturally to changing light throughout the day, shifting between soft clay warmth and atmospheric earthy tones. This evolving character allows **SUNSET** to create spaces that feel emotional yet refined, adding visual warmth while maintaining a calm architectural balance. Paired with clean forms, natural materials, and carefully composed lighting, **SUNSET** becomes a contemporary statement with an understated presence. The result is an environment that feels creative, comforting, and softly cinematic — where material, shadow, and atmosphere exist in quiet harmony.

MC-LEAF introduces a grounded and contemplative atmosphere through muted green tones softened with a refined architectural character. The color carries a quiet sense of balance, allowing space, light, and material to coexist naturally within the environment.

Its subtle depth changes gently throughout the day, responding softly to shadow and surrounding textures while maintaining a calm visual presence. Rather than becoming the focal point, LEAF creates a composed backdrop that enhances the overall spatial experience with understated sophistication.

Combined with natural materials, clean forms, and restrained styling, LEAF brings a sense of stillness into contemporary interiors — creating spaces that feel thoughtful, tactile, and emotionally balanced.

MC-BRICK introduces warmth and quiet expression through a muted clay-toned palette with a refined contemporary character. Softly shaped by light and shadow, the color creates spaces that feel intimate, confident, and timeless.
